BY From this time until some signal success attends our arms, the Copperhead press will beay fixelf in starting all manner of canards calculated to annoy and distress loyal men and cembarrass the Government. When they cannot get a chance to bits as makes, they will hum about as musquitoes and get a quarter of a drop of blood where they can. In this business the N. Y. World is especially busy and will be aladed by the Especially busy and will be aladed by the Especially busy and will be aladed by the Suprets and other small lights.

Such stories will be distred as that General Butler has got restive and "has written a spirited letter"; that Gen. Grant has had a break with Secretary Stanton, and that Stanton, Hallech, and perhaps President Lincoln, are going to restign—and a thousand other clories of the same calibre. If they are unable to domy other harm they can make faces at somewhay's sister. Our "Missy Gin" organ in Chicago is of toe bloody minded and infernal make to do much of this sort of work. It goes for downright Stante lying and treason. Its head is always flat and its tongue protruded.

Let The Atlantic Monthly for May is fully up to its usual standard of excellence. It contains: "A Cruise on Lake Ladogs," by Bayard Taylor, "Wet Weather Work," by Its Market; "The Resper A Dream," by Thomas Buchanan Read; "The New England Ravolution of the Seventeenth Contary," by John G. Palfrey; "Sent Account of the Early Life of an Old Bachelor," by A. M. Dian; "The Soow Man," by Charles J. Sprague; "The Gold Fields of Nova Scotia,"

by Rebert Browping; "California as a Vine Land," "To a Young Girl Dying," with a Gift of fresh Palm Leaves, by T. W. Par-sons; "The Rim," Part is, by Harriet E. At first they helical and made some movements toward forming a line of battle, but these snowsments turned into while confusion as the excury came forward with accelerated speed, and when he a few minutes the very ground began to invention and the very ground began to invention and the state of the recount with the containingled counds of the county of the state of the recount with the containingled counds of the state of the stat upon your readers fit mecessity or financial measures by Congress to said the emergency of the area and most vital importance. I now hear that the quantion of the acceptance of their offer is one of finance alone, and the heilitancy of the Government is to day on that consideration. On there be say better finantiation of the failures of Congress to said the crisis? The truth is this Congress assembled with the impression on the minds of the samples that the South was already conjusted, and all that was necessary, for them to arrange for the future condition of the country. This most fatal error I, of a firstle will be the cause of much future trouble and suffering.

This most fittal error I am aireald will be the cause of much future trouble and suffering.

The army bequiet. Willish the past few days some are thousand sick and wounded have come forward from the front. It is melgerholy to see the long processions of arminers silled with these poor fellows. Alout of them are, however, able to reit up, and all are comfortably cared for. Let not the public underrate the task which General Grant has before him, or the strength of the enemy. My belief, from all that I can learn, is that General Lee has now as tine an army, as regards number and appointment, as he ever commanded. He has the advantage of position, of a knowledge of the country and of interior lines of communication. He, and his army also. know that their all is staked on the issued of the coming campaign. They will consequently field with a desperation herefolore intexcelled. Gen. Grant's co-operating columns are not yet ready. He may more cofore they are, however, in which case he fights at a disadvantage. I rather think he will not. In the meantime indications are that Lees about to take the initiative, and I should not be surprised at any moment to learn that a great and desperate battle had comminated. The report is that Longuizeth had joined Lee, and that the latter was also receiving reinforcements from Charleston and Mobile, which I consider not

Longstreet had Joined Lee, and that the latter was size receiving reinforcements from
Charleston and Mobile, which I consider not
at all unlikely, as the robels can now spare
large loodles of troops from those points, sepecially the former. Conscripts are also repregarded as coming into Lee's ramp at the
real of one thousand per day. In fine, everything indicates an encounter, or series of encounters, of great magnitudes and unprocedented ferocity.
